

weekly wave

You've heard what we have to say about Camp Kern but don't just take our word for it! See what our leaders have to say about their CK experience!

"It's obvious that the camp staff has been hand selected. They are all way above average individuals. The camp still has many needs, but it is these personnel that made this camp an outstanding camp for our troop." - Troop 125

"Our Troop friend was excellent as was the whole staff. The food was great – kudos to the kitchen staff. Physical environment much improved. This was our best camp experience in several years."

"I really like the program! The long free time in the afternoon with the classes in the morning gave the best of an open and closed program. You have a great location; truly beautiful, an outstanding staff and a camp that is being rebuilt. The ingredients are there for a very successful future."

"I have been bringing our boys to Camp Kern for the past 8 years. This has truly been the best time and I look forward to bringing my Troop and sons here in the future. Your staff and organization is AWESOME!!!"

Camp Staff 2009,

Camp Kern has been an important part of my life since the summer of 1989 when I came here for the first time. After many truly amazing years on staff, however, Kern's glory faded because of scandal, mismanagement and neglect. I honestly feared that Kern, and all the experiences Scouts and staffers have here, would have died away forever.

After a week spent with this staff, I once again feel confident about the well being (present and future) of camp, and Scouting. Thanks guys. All the leaders I know had almost given up completely. Camp desperately needed a home run. I believe you hit a Grand Slam!

Thank you for your dedication and for the passion with which you are running Kern.

***Sincerely,
Jeffery Wagner***
